# **Abhijit Barman**

### Full Stack Web Developer

#### **PROJECTS**

### 

- Developed an online platform dedicated to promoting sustainable and responsible tourism.
- Implemented responsive design for cross-device compatibility using HTML, CSS, and Bootstrap.
- Integrated user registration/authentication and managed orders with CRUD operations.
- Designed real-time search/sort functionality for enhanced user experience.
- Utilized Git for version control and deployment through Vercel.

### 

- Collaborated with a team of five to develop a dynamic and streamlined online shopping experience in the fashion retail industry
- Utilized React.js for frontend development, creating dynamic and interactive user experiences
- Implemented Tailwind CSS for efficient and maintainable styling
- Constructed a RESTful API with Node.js for backend functionality
- Utilized GitHub for version control, ensuring streamlined collaboration and version control
- Deployed the website on cloud platforms like Vercel for efficient hosting
- Implemented a real-time login using Firebase authentication
- Integrated real-time payment gateway using react-stripecheckout for seamless transactions
- Took ownership of the dynamic cart page and ensured smooth navigation and functionality
